Foundations in Winemaking (Online)

NEXT COURSE: September 29 to December 22, 2025

Foundations in Winemaking provides an in-depth introduction to wine production. Participants will gain an understanding of the key skills and knowledge necessary to make wine, from receiving grapes to packaging the final product.

Weekly, optional live sessions review the week's material and provide a space for questions and discussions including guest speakers such as winemakers working in the industry, to answer your questions.

Topics include winery equipment and processes, fermentation chemistry and microbiology, wine styles, and regulations.
